

LICTIS[®] 800 EC

**FOR CONTROL OF ANNUAL RYEGRASS (LOLIUM RIGIDUM)
AND OTHER GRASS AND BROADLEAF WEEDS IN BARLEY AND
WHEAT**

PRODUCT OVERVIEW

- Product must be incorporated into the soil within 7 days of application.
- Albaugh LICTIS[®] 800 EC Herbicide is a short residual, soil applied, pre-emergent herbicide that is absorbed by the roots and shoots (coleoptile) of germinating seedlings with inhibition of growth in the meristematic region. Foliar uptake is possible but of lower effect. Upstream translocation in the plant occurs but movement in the phloem is very unlikely. Best activity can be expected from applications before or shortly after the germination of target weeds.
- LICTIS[®] 800 EC should be applied to a moist smooth seedbed free of soil clods and emerged weeds. Product efficacy may be reduced by improper incorporation, high levels of crop or trash residues, stones or foreign matter and in areas of extremely high weed seed density such as header rows. For optimal efficacy and crop safety in barley and wheat avoid shallow seeding and ensure accurate seed placement that avoids placement of seed in the herbicide band.

PRODUCT USES

IBS with knife or blade points: Working speed should ensure adequate incorporation of product but avoid soil throw into the adjacent seeding row. Use of press wheels will minimise potential for herbicide to be dragged back into seeding rows. Weed control may be reduced in seeding rows as a result of concentration of herbicide in crop inter-rows. A knife or blade point is defined as being < 12 mm in width, having no wings, inverted T or blade and is generally on a minimum 200 mm row spacing.

Arcade[®] is a registered trademark of Syngenta

ACTIVE INGREDIENT

800 g/L Prosulfocarb

H.R.A.C. GROUP

GROUP 15 HERBICIDE

FORMULATION

Emulsifiable Concentrate

POISON SCHEDULE

Schedule 6

COMPARE TO

Arcade[®]

MODE OF ACTION

Thiocarbamates; inhibitors of fat synthesis

SIGNAL HEADING

POISON
KEEP OUT OF REACH OF
CHILDREN
READ SAFETY DIRECTIONS
BEFORE OPENING OR USING

PACKAGING

20LTR, 110LTR, 1000LTR

APVMA APPROVAL NO.

94488/142573
