

FUNGICIDE

FLUDIOXONIL SC

**FOR CONTROL OF FOLIAR, STEM, AND ROOT DISEASES
IN TURFGRASS AND ORNAMENTALS.**

Fludioxonil SC is a protectant fungicide delivering reliable, broad-spectrum control of several key turf and ornamental diseases. **Fludioxonil SC** fights fungal pathogens by disrupting the osmotic regulation of fungal cells, causing them to burst. The easy-to-use suspension concentrate formulation is highly effective against a range of diseases, including pink and gray snow mold, bentgrass dead spot, and anthracnose.

PRODUCT FEATURES

- Unique mode of action fungicide, sourced from a naturally occurring antifungal compound produced by soil-dwelling bacteria.
- Targets fungal cells and interferes with osmotic regulation, disrupting cellular processes and rapidly inducing fungal spores to absorb water, causing them to burst and die.
- Delivers contact protection - significantly reducing disease pressure.
- Highly effective against a range of fungal pathogens, including pink and gray snow mold, bentgrass dead spot, and anthracnose.
- Ideal tank-mix partner for snow mold programs, enhancing spectrum of activity and extending duration of control.

LABELED USES

Turfgrass including golf courses, institutional, commercial, and residential lawns, sod farms, sports fields, parks, municipal grounds and cemeteries.

Ornamentals grown in interiorscapes, field nursery plantings, container nurseries, forest nurseries, residential and commercial landscapes, greenhouses, lath and shade houses, or other enclosed structures.

See label for complete application guidelines and restrictions.

ACTIVE INGREDIENT

11.8% fludioxonil

FRAC GROUP

12

FORMULATION

Liquid

CHEMICAL FAMILY

Phenylpyrrole

COMPARE TO

Medallion® SC

MODE OF ACTION

Prevents fungal respiration

RESTRICTED USE

No

SIGNAL WORD

Caution

PACKAGING

4 x 1 gal

EPA REG NUMBER

42750-255

FLUDIOXONIL SC

CONTROLS FOLIAR, STEM, AND ROOT DISEASES IN TURFGRASS AND ORNAMENTALS.

DISEASES CONTROLLED – TURFGRASS

Anthracnose	<i>Fusarium</i> patch	Gray and pink snow mold
Bentgrass dead spot	Gray leaf spot	Summer patch
Brown patch	Leaf spot	Yellow patch
Brown ring patch	<i>Microdochium</i> patch	

DISEASES CONTROLLED – ORNAMENTALS

Aerial blight (<i>Rhizoctonia</i> spp)	<i>Cercospora</i> leaf spot (<i>Cercospora</i> spp)
Alternaria leaf blight (<i>Alternaria</i> spp)	<i>Myrothecium</i> leaf spot and blight (<i>Myrothecium</i> spp)
Alternaria leaf spot (<i>Alternaria</i> spp)	<i>Septoria</i> leaf spot (<i>Septoria</i> spp)
Botrytis blight (<i>Botrytis</i> spp)	

STEM, CROWN, AND ROOT ROTS

<i>Cylindrocladium</i> stem and root rot (<i>Cylindrocladium</i> spp)	Southern blight (<i>Sclerotium rolfsii</i>)
<i>Fusarium</i> stem and root rot (<i>Fusarium</i> spp)	Black root rot (<i>Thielaviopsis</i> spp)
<i>Rhizoctonia</i> stem and root rot (<i>Rhizoctonia</i> spp)
