

NON-SELECTIVE HERBICIDE

SURMISE[®] PRO

NON-SELECTIVE HERBICIDE FOR POSTEMERGENCE WEED CONTROL.

Surmise[®] Pro is a postemergence, non-selective, herbicide for the control of broadleaf weeds and grasses. A group 10 herbicide (glutamine synthetase inhibitor), **Surmise Pro** is a foliar-active material with little or no soil-residual activity. Visual results showing necrosis of leaves and young shoots occur within 2 to 4 days after application under good growing conditions.

Surmise Pro is rainfast four (4) hours after application to most weed species; therefore, rainfall within four (4) hours may necessitate retreatment or may result in reduced weed control.

PRODUCT FEATURES

- Lower use rates versus glyphosate.
- Provides control of a wide variety of emerged annual and perennial broadleaf weeds and grasses.
- Reduced translocation enables ability to create and maintain clear boundaries around golf turf, sand traps, and athletic fields and accurate application areas around existing ornamentals in landscape beds.
- Effective pre-plant treatment for turf, ornamentals, and greenhouses due to minimal soil residual.
- Excellent tank-mix partner with preemergence herbicides such as prodiamine, oryzalin, and oxadiazon.
- Excellent rotation herbicide for managing existing or developing resistance issues.

LABELED USES

- Ornamental turf
- Rights-of-way
- Permanent grass pastures and CRP acres (including fence rows and non-irrigation ditch banks)
- Rangeland
- Industrial sites
- Forests
- Non-crop areas

See label for complete application guidelines and restrictions.

ACTIVE INGREDIENT

24.5% glufosinate-ammonium

HRAC GROUP

10

FORMULATION

Liquid soluble concentrate

CHEMICAL FAMILY

Phosphinic acid

COMPARE TO

Cheetah[®] Pro

MODE OF ACTION

Glutamine synthetase inhibitor

RESTRICTED USE

No

SIGNAL WORD

Caution

PACKAGING

4 x 1 gal, 2 x 2.5 gal

EPA REG NUMBER

42750-365-89442

SURMISE[®] PRO

NON-SELECTIVE HERBICIDE FOR POSTEMERGENCE WEED CONTROL.

LABELED WEEDS

Broadleaf Weeds

Annual sowthistle	Dogbane (hemp)	London rocket	Prickly lettuce	Wild buckwheat
Bindweed	Field growwell	Malva (little mallow)	Purslane	Wild mustard
Buffalobur	Filaree	Marestail	Ragweed	Wild onion
Burdock	Fleabane	Mugwort	Russian thistle	Wild rose
Canada thistle	Goldenrod	Musk thistle	Shepherd's purse	Wild turnip
Chickweed	Horsetail	Nettle	Smartweed	Wood sorrel
Clover	Jimsonweed	Nightshade	Velvetleaf	Yellow rocket
Common cocklebur	Kochia	Pennycress	Vervain	
Curly dock	Lambsquarters	Pigweed, redroot	Virginia copperleaf	
Dandelion	Leafy spurge	Plantain	White heath aster	

Grassy weeds

Annual bluegrass	Cupgrass	Green foxtail	Quackgrass	Stinkgrass
Bahiagrass	Dallisgrass	Guineagrass	Ryegrass	Torpedograss
Barley	Downy brome	Johnsongrass (rhizome)	Sandbur	Vaseygrass
Barnyardgrass	Fall Panicum	Kentucky bluegrass	Shattercane	Wheat
Bermudagrass	Fescue	Lovegrass	Smallflower	Wild oat
Carpetgrass	Giant foxtail	Nutsedge	Alexandergrass (Signalgrass)	Windgrass
Crabgrass	Goosegrass	Paragrass	Smooth brome	Yellow foxtail
