### ATTENTION

This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the **EPA**.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and follow all applicable directions for use, precautions and limitations on the product label attached to the container for Exceliprole™ 400 SC.

## TOBACCO

**SOIL APPLICATIONS AT PLANTING:** Apply Exceliprole® 400 SC for soil application at planting at a rate of 2.55 – 3.75 fl oz/A. The acceptable methods are as follows:

- Just prior to planting making sure to treat only the soil around the transplant.
- During the planting process where the treated soil and transplant root system are coated via the transplant water.
- Transplant water treatment at planting where the transplant root ball is drenched in the transplant water prior to being planted in the soil.

### **RESTRICTIONS:**

- Do not make more than 4 applications per year
- Reapplication Interval: 3 Days
- Do not apply more than 7.66 fl oz of Exceliprole® 400 SC per year or 0.2 lb. ai of any other chlorantraniliprole containing products per acre per calendar year.
